Lusaka, Zambia | adrianmange00@gmail.com | +260 962 746 692 | LinkedIn: <https://www.linkedin.com/in/bwalya-adrian-mange-4101a8396> GitHub: <https://github.com/MetaADRI>

PROFESSIONAL SUMMARY: Customer-focused IT and support professional with hands-on experience in high-volume telecom support and ICT systems administration. Proven ability to handle 180+ daily customer interactions while maintaining strong KPIs, delivering excellent customer experiences, and resolving technical issues efficiently. Skilled in troubleshooting, escalation handling, and using enterprise support tools. Passionate about helping users and businesses succeed through clear communication, technical expertise, and reliable service delivery.

PROFESSIONAL EXPERIENCE

Customer Care Agent (MTN Zambia), iSON Xperiences Zambia Ltd (Part-time) | Dec 2025 – Present | Lusaka

- Handle high-volume customer interactions (180+ calls daily) within strict KPIs, maintaining an average handling time of ~1 minute 40 seconds per call while maintaining 95%+ Quality Assurance performance.
- Provide support for mobile money using Ericsson Converged Wallet, network services and device configuration (Internet) using Unified Data Management platform, and MTN product/services inquiries
- Clearly explain products and services (including mobile money platforms, loan collection platforms, routers, and smartphones) to customers, ensuring accurate understanding and improved user experience
- Actively probe customers to diagnose issues accurately and deliver efficient, first-contact resolutions, reducing repeat calls
- Escalate complex or high-risk issues (e.g., mobile money transactions involving funds) using ServiceNow, ensuring timely follow-ups and resolution
- Maintain professionalism and composure in high-pressure situations while delivering consistent customer satisfaction
- Accurately log, track, and manage customer tickets using ServiceNow and internal systems

IT Support Intern, Inspire Leadership School | Jun 2025 – Oct 2025 | Lusaka

- Provided technical support for staff and students, troubleshooting hardware (laptops, smartphones) and software issues
- Performed regular system maintenance including software updates and malware protection using tools such as Avast, AVG and Microsoft Defender
- Configured and maintained IT infrastructure, including printers, drivers, and Wi-Fi routers
- Set up and configured LAN connectivity by assigning IP addresses and ensuring proper network communication between devices
- Delivered digital literacy training to students, covering computer hardware, software usage, internet safety, and basic networking concepts
- Introduced foundational coding concepts through practical projects such as building a basic calculator
- Trained staff on using AI tools (ChatGPT, Gemini, DeepSeek) to automate tasks such as generating test papers, schemes of work, and timetables

Prompt Carrot — Remote | Research Analyst (Prompt Hunter & Curator) | 3-Month Contract Jan 2026 – Mar 2026

- Researched and sourced high-quality AI prompts across online communities including Reddit, GitHub, Discord, and technology blogs.
- Evaluated prompts for clarity, effectiveness, and practical application in AI tools such as ChatGPT and Claude.
- Refined and optimized prompts to improve usability and output quality.
- Organized curated prompt collections to support future AI users and workflows.
- Identified emerging prompt trends and leading prompt creators within AI communities.
- Collaborated remotely within a structured research program for digital content curation
